ANTITUMORAL ALKYL LYSPHOSPHOLIPID, membrane permeability, fibrosarcoma cells, 813

AORTA, rabbit, monoacylglycerol lipase, activity, 999

APOLIPOPROTEIN B, effect of zinc deficiency, rat, 1035

ARACHIDONIC ACID, content in fungus, 1060

distribution in rat liver under a fat-free diet, 45

ASPERGILLUS NIGER, Nystatin-resistant, membrane properties, 609

ASSAY, O-alkylglycerol, continuous assay, 824

AUTOXIDATION, kinetics for polyunsaturated fatty acids, 299
of cyclic fatty esters, 721

B

BABOON, lipoproteins, quantitation by gel exclusion chromatography, 366

BACILLUS MEGATERIUM, lipid composition of spores and spore membranes, 698

BACTERIA, INTESTINAL, biotransformation of bile acids, 669

1- β -D-ARABINOFURANOSYLCYTOSINE, anti-neoplastic activity, 943

BETA-OXIDATION, effect of L-carnitine, 1005

BILE, secretion in rat liver, effects of taurocholate perfusion, 1

BILE ACIDS, biotransformation by intestinal bacteria, 669

solubilization of protein from liver plasma membrane, effect of lecithin, 41

hydrolysis, improved enzymatic method, 61

metabolism, effect of cholestyramine, 513

BILE SALT, micellar solution, partitioning of cholesterol, effects of oleic acid, 121

BLOOD, dolichol determination, 58

rabbit, fatty acid composition, effect of docosahexaenoic acid, 1031

BM 41.440, antineoplastic activity, 916

cytotoxicity, 958

cytotoxic activity, human tumor cultures, 955

pharmacokinetics in rat, 952

phase I trial in humans, 962

ONE MARROW, transplantation, role of alkyl lysophospholipids, 919

BONE MARROW CELLS, human, ether lipids, cytotoxic effects, 904

BRAIN, human, fatty acid composition, dietary effects of linoleate, 133

lipid extract, procedures for polar contaminant removal, 274

C

CAENORHABDITIS ELEGANS, sterol metabolism, 84

CALMODULIN ANTAGONISTS, suppression of cholesterol synthesis, 261

CANCER ANTENNARIUS (PACIFIC CRAB), gill lipid content, 76

CANCER THERAPY, ether lipids, 974

ether lipids and analogs, 970

CARCINOGENESIS, effects of alkyl lysophospholipids, 935

CARCINOMA, mammary, rat, alkyl phosphocholine activity, 930

rat, modulation by alkyl lysophospholipids, 935

CELL GROWTH, inhibition, synthetic O-alkylglycerolipids, 897

CELL MEMBRANES, rodent, invasion of, lipid derivatives, 847

CHEMOTHERAPY, role of liposomes, 891

CHOLESTEROL, effect on HMG-CoA reductase, rat, 1057

intestinal uptake, effects of lipid concentration, 28

metabolism, rat, effect of cupric ions, 1016

oxidation products in phospholipid membranes, 627

partitioning in micellar bile salt solution, effect of oleic acid, 121

quantitation in mammalian liver, 1045

synthesis, effect of ketoconazole, 1020

synthesis, suppression by calmodulin antagonists, 261

CHOLESTERYL ESTERASE, activities in rat heart tissue, 108

CHOLESTYRAMINE, effects on bile acid metabolism, 513

CHOLINE, in sphingomyelin biosynthesis, 351

CHROMATOGRAPHY, capillary, analysis of disteryl ethers, 1049

capillary gas, analysis of volatile fatty acids, 195

capillary gas, fatty acid methyl esters, 637

capillary gas, fatty acids of plasma and lipoproteins, 381

capillary gas, hydroperoxide decomposition products, 322

capillary gas, jojoba wax fatty acids and alcohols, 358

capillary gas, picolinyl esters of mono- and dienoic fatty acids, 224

capillary gas, use in sterol analysis of cotton buds, 80

column, high performance, thin layer and gas, use in purification

and identification of bovine pineal gangliosides, 17

gas liquid, fatty acid content in fungus, 1060

gel exclusion of baboon lipoprotein, 366

SUBJECT

- high performance liquid, analysis of 1-alkyl-2-acyl and 1-alkyl-3-acyl-*sn*-glycerols, 362
- high performance liquid, cholesterol oxidation products, 627
- high performance liquid, electrochemical detection of phospholipid hydroperoxides, 125
- high performance liquid, use for the estimation of blood dolichol, 58
- high performance liquid, use in characterization of feline omentum lipids, 229
- high performance liquid, use in measurement of malondialdehyde, 104
- high performance liquid, use of chiral phase for enantiomer separation, 596
- thin layer, analysis of disteryl ethers, 1049
- thin layer, capillary gas, use in phytanic acid analysis in Refsum's disease, 69
- thin layer, hydroxy fatty acids, 413
- thin layer, use of iodine staining in the analysis of lipids, 201
- CYLOMICRONS, effect of zinc deficiency, rat, 1035
- transport of dimethylbenz(a)anthracene, 279
- triglycerides, serum clearance, 318
- COTTON, buds and anthers, sterol analysis, 80
- COTTONSEED, cyclopropanoids, electron microscopic cytochemistry, 397
- CRAAB (PACIFIC), gill lipid content, 76
- CUPRIC IONS, effect on cholesterol metabolism, serum and liver, 1016
- CYCLIC FATTY ESTERS, autoxidation, 721
- CYCLOPROPENOID, cottonseed, electron microscopic cytochemistry, 397
- CYSTIC FIBROSIS, lipid absorption, 424
- CYTOCHALASIN B, membrane permeability, fibrosarcoma, 813
- CYTOCHROME P-450, microsomes, liver, gerbil, hydroxylation of fatty acids, 987
- CYTOSTATIC ACTIVITY, synthetic O-alkylglycerolipids, 897
- CYTOTOXICITY, BM41.440, 955
- ### D
- DAZMEGREL, an inhibitor of thromboxane synthetase, 159
- DESATURASE, activity, effect of cold environment, 583
- DESATURASES, FATTY ACID, liver, activities, 282
- DIABETES, abnormal metabolism of polyunsaturated fatty acids and phospholipids, 704
- DIET, effect on HMG-CoA reductase, liver, rat, 1057
- effect upon tumorigenesis in rat, 1041
- palmitoyl glycerol, effect on plasma and lymph lipids, mice, 1009
- 7,12-DIMETHYLBENZ(A)ANTHRACENE, mammary tumorigenesis, 1041
- DIMETHYLBENZ(A)ANTHRACENE, absorption and transport in the rat, role of the lymphatic system, 152
- rat intestinal absorption and chylomicron transport, 279
- DISTERYL ETHERS, analysis of, GC, 1049
- DOCOSAHEXAENOATE, retina, composition and metabolism, effects of aging, 253
- DOCOSAHEXAENOIC ACID, dietary effects on prostanoid metabolism in the rat, 647
- DOLICHOL, blood, determination of, 58
- quantitation in mammalian liver, 1045
- DOLICHYL PHOSPHATE quantitation in mammalian liver, 1045
- ### E
- EICOSAPENTAENOIC ACID, dietary effects on prostanoid metabolism in the rat, 647
- enteral absorption of different forms, 711
- intake into plasma lipids, rat, 994
- EICOSATETRAYNOIC ACID, effect upon membrane lipids, intestine, trout, 1053
- ELECTRON MICROSCOPY, cytochemistry of cottonseed cyclopropanoids, 397
- ENZYMES, rat liver, mitochondrial and peroxisomal, effects of dietary *trans* fat on fatty acid oxidation, 6
- ERYTHROCYTES, membrane, periodate-induced oxidation, 312
- membrane lipid peroxidation, 401
- mouse, plasmodium infected, lipids and oxidative damage, 51
- rat, membrane, lipid composition, effect of hypothyroidism, 148
- ESSENTIAL FATTY ACIDS, metabolic effects of (n-3) and (n-6) fatty acids, 613
- ESTER-LINKED PHOSPHOLIPID, effect on cell membrane invasion, 847
- ESTER LYSOPHOSPHOLIPIDS, enzymatic acylation, rat liver microsomes, 808
- ETHER LIPIDS, biosynthesis and transformation, 789
- analogs, cancer therapy, 970
- cancer therapy, 974
- cytotoxic effects, leukemic cells, bone marrow cells, 904
- effect on interleukin-1 and interleukin-2, 836
- inhibition of tumor promoters, 851
- neoplastic cell inhibition, 878
- oncology, 787
- ETHER LYSOPHOSPHOLIPIDS, enzymatic acylation, rat liver microsomes, 808
- ETHER PHOSPHOLIPIDS, inhibitor of tumor growth, protein kinase C, 842
- metabolism of, neoplastic cells, 856
- ET-18-OCH₃, clinical phase I study, humans, 967
- cyclic ether analog, antitumor activity, 884
- cytotoxicity, 958
- therapeutic activity, mammary tumors, 927
- ### F
- FAT, dietary, effects on intestinal transport in the rat, 22
- dietary, possible role in tumor promotion, 445
- dietary effects on rat liver and plasma lipids, 88
- trans*, dietary effect on fatty acid oxidation in the rat liver, 6
- FAT-STORING CELLS, rat liver, lipid composition, 266
- FATTY ACID COMPOSITION, blood cells, rabbit, effect of tridocosahexaenoyl-glycerol, 1031
- human leucocytes and fibroblasts, influence of environmental medium, 241
- plasma and lipoproteins, in glycogen storage disease, 381
- rat adipose tissue, 338
- rat retina lipids, 253
- serum, children, short-term reproducibility study, 250
- sponges, 767
- FATTY ACID PROFILE, plasma and lymph lipids, mice, 1009
- plasma lipids, effect of eicosapentaenoic acid, 994
- plasma, rat, mammary tumorigenesis, 1041
- rat tissues, effect of diet, 1025
- FATTY ACID RECEPTORS, rat myocardial, purification, 544
- FATTY ACID-GLYCEROL SUSPENSION, effect on blood, fatty acid profile, 1031
- FATTY ACIDS, absorption and metabolism in humans, 495
- arachidonic and n-3 polyunsaturated, distribution in rat liver under fat-free diet, 45
- autoxidation, kinetics, 299
- 20-carbon polyunsaturated, incorporation into human keratinocytes, 139
- chicken liver, dietary effects of hydrogenated fat and linoleate, 637
- composition of Australian *Acacia*, 490
- developing human liver and brain, effects of parenteral nutrition with high linoleate, 133
- dietary effects on fatty acid composition of sciatic nerve, 535
- effects of (n-3) and (n-6) on essential fatty acid metabolism, 613
- effects on junctional communication, 445
- human maternal and cord blood, comparative study of two racial groups, 173
- hydroxylation of, cytochrome P-450, 987
- hydroxy, thin layer chromatography, 413
- icosapentaenoic acids from seaweed, 190
- incorporation in rat liver lipids, 553
- jojoba wax, 358
- liver, effect of rectal administration of linoleate, 328
- mono- and dienoic, mass spectra of picolinyl esters, 224
- of platelet phospholipids, dietary effects of fish oils, 744
- oxidation in rat liver, effects of dietary *trans* fat, 6
- plasma, effects of dietary fat, 523
- polyunsaturated, rat, effect of trielaidin and linolenic acid, 1025
- possible role in tumor development, 445
- synthesis of thiazanones, 578
- tumor cell membranes, modification, 178

SUBJECT

volatile, analysis by capillary gas chromatography, 195
 FIBROBLASTS, cholesterol transfer from microemulsions, 657
 human, fatty acid composition, influence of growth media, 241
 FIBROSARCOMA, mouse, transmembrane signalling, protein kinase C, 842
 FIBROSARCOMA CELLS, membrane permeability, antitumoral alkyl lysophospholipid, 813
 FISH OILS, dietary, effects on platelet phospholipids, 744
 dietary effects on tocopherol status, 345
 FISH-EYE DISEASE, lipid transfer between lipoproteins, 305
 FUNGUS, arachidonic acid content, 1060

G

GALLSTONES, mouse, 542
 GANGLIOSIDES, bovine pineal, composition, 17
 GERBIL, hydroxylation of fatty acids and alcohols, cytochrome P-450, 987
 GLIOBLASTOMA, anti-neoplastic activity of lipid conjugates, 943
 GLYCEROLS, analysis by HPLC, 362
 GLYCEROPHOSPHOCHOLINE, metabolism in rabbit alveolar macrophages, 589
 GLYCEROPHOSPHOLIPIDS, intestinal absorption in the guinea pig, role of a phospholipase A₂, 33
 GLYCEROPHOSPHOLIPIDS, ETHER, Pacific crab, content in gills and other tissues, 76
 GLYCOGEN STORAGE DISEASE, plasma and lipoproteins, fatty acids, 381
 GUINEA PIG, intestinal absorption of glycerophospholipids, role of a phospholipase A₂, 33

H

HAMSTER, heart enzymes, 672
 HEART TISSUE, rat, cholesteryl esterase activities, 108
 HEPATOCYTES, palmitate oxidation products, 620
 rat, oleate metabolism, effects of phorbol esters A23187 and vasopressin, 474
 HEXADECYLPHOSPHOCHOLINE, distribution and metabolism, mice, 925
 therapeutic activity, mammary tumors, 927
 toxicity and anticancer properties, 930
 HMG-CoA REDUCTASE, liver, rat, effect of diet, 1057
 HUMAN, leukemic blasts, alkyl lysophospholipids, 911
 phase I trials, BM 41.440, 962
 tumor cultures, cytotoxicity of BM 41.440, 955
 tumor xenografts, ET-18-OCH₃, BM 41.440, 958
 HYDROGENATED FAT, dietary effects on liver fatty acid profile, 637
 HYDROLYSIS, NONENZYMATIC, phosphatidylcholine stability, 156
 HYDROPEROXIDES, decomposition products, 322
 from cyclic fatty esters, 721
 in rat lipids, effects of tetrachloromethane, 689
 phospholipid, HPLC and electrochemical detection, 125
 HYDROXY FATTY ACIDS, thin layer chromatography, 413
 HYDROXYLATION, fatty acids and alcohols, cytochrome P-450, 987
 HYPOTHYROIDISM, effect on erythrocyte and plasma lipids in rats, 148

I

IATROSCAN, use in determination of crab gill lipid content, 76
 ICOSAPENTAENOIC ACIDS, from seaweed, 190
 IMMUNOMODULATION, effect of alkyl lysophospholipids, macrophages, 871
 IMMUNOSUPPRESSION, ET-18-OCH₃, 967
 IMMUNOTHERAPY, role of liposomes, 891
 INTERFERON, effects on liver phospholipids, 736
 INTERLEUKINS, activity and secretion, effect of ether lipids, 836
 INTESTINE, rat, cholesterol and oleic acid uptake, effects of lipid concentration, 28
 rat, transport changes due to dietary fat manipulation, 22
 trout, membrane lipids, effect of eicosatetraenoic acid, 1053

IODINE STAINING, in thin layer chromatographic analysis of lipids, 201

J

JOJOBA WAX, fatty acids and alcohols, 358

K

KERATINOCYTES, human, incorporation of polyunsaturated fatty acids, 139
 7-KETOCHOLESTERYL BENZOATE, synthesis and NMR spectral properties, 760
 KETOCONAZOLE, effect on cholesterol synthesis, 1020

L

L-CARNITINE, effect on lipoproteins, rat, 1005
 LECITHIN, effect on bile acid solubilization of protein from liver plasma membrane, 41
 LECTINS, isolation and quantitation from vegetable oils, 667
 LEUCOCYTES, human, fatty acid composition, influence of growth media, 241
 human, platelet-activating factor, 285
 LEUKEMIA, antineoplastic activity of lipid conjugates, 943
 rat, modulation by alkyl lysophospholipids, 935
 LEUKEMIC BLASTS, alkyl lysophospholipids, structure-cytotoxicity studies, 911
 anti-neoplastic activity of BM 41.440, 916
 LEUKEMIC CELLS, ether lipids, cytotoxic effects, 904
 purging by alkyl lysophospholipids, 919
 LINOLEATE, dietary, effects on developing human liver and brain, 133
 dietary effects on liver fatty acid profile, 637
 hydroperoxides, decomposition products, 322
 LINOLEIC ACID, hydroperoxides in rat lipids, effects of tetrachloromethane, 689
 rectal administration and uptake, 328
 LINOLENIC ACID, effect on polyunsaturated fatty acids in rat, 1025
 LIPASE, activity determination by spectrophotometry, 539
 monoacylglycerol, rabbit aorta, 999
Mucor miehei, purification and properties, 559
 LIPASE, LINGUAL, immunocytochemical localization, 764
 LIPID CONJUGATES, antineoplastic activity, 943
 LIPID DERIVATIVES, invasion of cell membranes, 847
 LIPID OXIDATION, erythrocyte membrane, 312
 LIPID SYNTHESIS, in Ehrlich ascites tumor cells, effect of mengovirus infection, 95
 LIPIDS, analysis by thin layer chromatography using iodine staining, 201
 brain extract, procedures for polar contaminant removal, 274
 composition in the sponge *Tethya aurantia*, 236
 composition of *Bacillus megaterium* spores and membranes, 698
 composition of melanoma cell variants, 651
 composition of rat liver cells, 266
 dietary, effects on phospholipid metabolism, 517
 ether, biosynthesis and transformation, 789
 feline omentum, composition, 229
 metabolism in rats, effects of Triton WR 1339 and orotic acid, 566
 mouse erythrocyte, 51
 oncology, 787
 peroxidation, measurement, 206
 peroxidation, urinary malondialdehyde as an indicator, 643
 peroxidation in erythrocyte membranes, 401
 rat liver, fatty acid incorporation, 553
 rat plasma and erythrocyte membrane composition, effects of hypothyroidism, 148
 rat retina, fatty acid composition, effects of aging, 253
 structured, lipid absorption in cystic fibrosis, 424
 structured, nonglucose energy sources in hyperalimentation, 421
 structured from medium chain triglycerides, 417
 LIPOPROTEINS, baboon, quantitation by gel exclusion chromatography, 366
 fatty acid composition in glycogen storage disease, 381

SUBJECT

- human maternal and cord blood, comparative study of two racial groups, 173
 lipid transfer, 305
 plasma, rat, effect of L-carnitine, 1005
LIPOSOMES, chemotherapy of cancer, 891
 immunotherapy of cancer, 891
LIVER, cholesterol metabolism, rat, effect of cupric ions, 1016
 fatty acid profile, dietary effects on hydrogenated fats and linoleate, 637
 gerbil, hydroxylation of fatty acids and alcohols, cytochrome P-450, 987
 HMG-CoA reductase, rat, effect of diet, 1057
 human, fatty acid composition, dietary effects of linoleate, 133
 lipids, fatty acid profiles, 553
 mammalian, extraction and quantitated of total cholesterol, 1045
 phospholipids, effects of interferon, 736
 phospholipids, effects of plasticizers, 572
 rat, bile lipid secretion, 1
 rat, cholesterol synthesis, effect of ketoconazole, 1020
 rat, effects of dietary *trans* fat on fatty acid oxidation, 6
 rat, lipids, effects of fat composition of the diet, 88
 rat, measurement of malondialdehyde, 104
 rat, microsomal membranes, distribution of fatty acids under a fat-free diet, 45
 rat, microsomes, degradation of platelet-activating factor, 800
 trout, membrane lipids, effect of eicosatetraenoic acid, 1053
LYMPH, lipids, mice, effect of palmitoyl glycerol, 1009
LYMPH CHYLOMICRONS, effect of zinc deficiency, rat, 1035
LYMPHATIC SYSTEM, transport of dimethylbenz(a)anthracene in the rat, 152
LYSOPHOSPHATIDYLINOSITOL PHOSPHATE, formation in human platelet microsomes, 144
LYSOPHOSPHOLIPID THIOETHER, anti-neoplastic activity, 911
LYSOPHOSPHOLIPIDS, alkyl, membrane permeability, fibrosarcoma, 813
 alkyl, tumor cell membranes, 820
 enzymatic acylation, rat liver microsomes, 808

M

- MACROPHAGE ACTIVATION**, alkyl lysophospholipids, 871
MAIZE, epicuticular waxes of double mutants, 11
MALONDIALDEHYDE, measurement in rat liver tissue, dietary effects of vitamin E, 104
 urinary, use as an indicator of lipid peroxidation, 643
MAMMALIAN LIVER, extraction and quantitated of total cholesterol, 1045
MAMMARY CANCER, influence of dietary medium chain triglycerides, 455
MAMMARY TUMOR, ET-18-OCH₃, therapeutic activity, 927
 hexadecylphosphocholine, therapeutic activity, 927
 mouse, inhibition of growth, synthetic alkyl phospholipids, 862
MELANOMA CELLS, lipid composition of variants, 651
MEMBRANE, properties of *Microsporum gypseum*, 530
 properties of a Nystatin-resistant mutant of *Aspergillus niger*, 609
MEMBRANE LIPIDS, intestine and liver, trout, effect of eicosatetraenoic acid, 1053
MEMBRANE PERMEABILITY, alkyl lysophospholipids, fibrosarcoma, 813
MEMBRANES, erythrocyte, periodate-induced oxidation, 312
 fluidity, alkyl lysophospholipid, 820
 rat myocardial, fatty acid receptors, 544
MENGIVIRUS INFECTION, effect on lipid synthesis, 95
MICE, lipids, plasma and lymph, effect of diet, 1009
 tocopherol status, effect of dietary fish oils, 345
MICROEMULSIONS, preparation and use in cholesterol transfer studies, 657
MICROSOMES, gerbil, hydroxylation of fatty acids and alcohols, cytochrome P-450, 987
 human platelet, lysophosphatidylinositol phosphate formation, 144
 liver, rat, degradation of platelet-activating factor, 800
 method for isolation, 751
 rabbit lung, characterization of phospholipase A₂, 731
 rat liver, enzymatic acylation, 808
 rat liver, O-alkylglycerol monooxygenase, 831
MICROSPORUM GYPSEUM, membrane properties, 530
MONOACYLGLYCEROL LIPASE, rabbit aorta, 999

- MONOOXYGENASE** O-alkylglycerol, continuous assay, 824
MORTIERELLA ALPINA, arachidonic acid content, 1060
MOUSE, hepatic lipid abnormalities, in chemical/viral model for Reye's syndrome, 217
 hexadecylphosphocholine, distribution and metabolism, 925
 macrophages, immunomodulation, alkyl lysophospholipids, 871
MUCOR MIEHEI, lipases, purification and characterization, 559

N

- NEMATODE (CAENORHABDITIS ELEGANS)**, metabolism of sterols, 84
NEOPLASM, cell inhibition, effect of ether lipid analogs, 878
NEOPLASTIC CELLS, metabolism of ether phospholipids and analogs, 856
NEUTROPHILS, phospholipid acylation, modulation by platelet-activating factor, 333
NONNEOPLASTIC CELLS, human bone marrow, ether lipids, cytotoxic effects, 904
5'-NUCLEOTIDASE, release from rat liver plasma membrane by bile acids, effects of lecithin, 41

O

- 1-O-ALKYL-2-O-METHYGLYCEROL**, transmembrane signalling, mouse fibrosarcoma, 842
1-O-ALKYL-2-O-METHYL-RAC-GLYCEROL, monooxygenase specificity, 831
O-ALKYLGLYCEROL MONOOXYGENASE, continuous assay, 824
 substrate specificity, 831
O-ALKYLGLYCEROLIPIDS, cytostatic activity, 897
OAT BRAN, effect on HMG-CoA reductase, rat, 1057
OCTADECADIENOIC ACID, absorption and metabolism in humans, 495
 picolinyl derivatives, mass spectra, 664
1-O-OCTADECYL-2-O-METHYL-RAC-GLYCEROL, monooxygenase substrate, 831
12-O-TETRADECANOYL-PHORBOL-13-ACETATE, inhibition by ether lipids, 851
OLEATE METABOLISM, effects of phorbol esters, 474
OLEIC ACID, effect on cholesterol partitioning from micellar bile salt solution, 121
 intestinal uptake, effects of lipid concentration, 28
OMENTUM, feline, lipid composition, 229
ONCOLOGY, ether lipids, 787
OROTIC ACID, effect on lipid metabolism in rats, 566

P

- PALMITATE**, labelled, oxidation products in hepatocytes and mitochondria, 620
PALMITOYL GLYCEROL, effect on lymph and plasma lipids, 1009
PARAMECIUM, metabolism of phytosterols, 386
PARENCHYMAL CELLS, rat liver, lipid composition, 266
PARENTAL NUTRITION, high linoleate, effects on developing human liver and brain, 133
PEROXIDATION, lipid, measurement, 206
 of lipids in erythrocyte membranes, 401
PHORBOL DIESTER TUMOR PROMOTERS, effect of ether lipids, 851
PHORBOL ESTERS, effects on oleate metabolism, 474
PHOSPHATIDYLCHOLINE, in sphingomyelin biosynthesis, 351
 stability to nonenzymatic hydrolysis, 156
PHOSPHOLIPASE A₂, characterization, 731
 effects on intestinal absorption of glycerophospholipids in the guinea pig, 33
PHOSPHOLIPASE C, degradation of platelet-activating factor, 800
 role in hexadecylphosphocholine metabolism, 925
PHOSPHOLIPASE D, degradation of platelet-activating factor, 800
 role in hexadecylphosphocholine metabolism, 925
PHOSPHOLIPID, abnormal metabolism in diabetic glomeruli, 704
 acylation, effect of platelet-activating factor, 333
 cell membranes, tumor cell invasion, 820
 ether lipid of the sponge *Tethya aurantia*, 236
 hepatic, effects of plasticizers, 572
 human platelet, arachidonate release, 116

hydroperoxides, HPLC and electrochemical detection, 125
 liver, effects of interferon, 736
 membrane bilayers, cholesterol oxidation products, 627
 metabolism in rabbit alveolar macrophages, 589
 metabolism in rat heart, effects of dietary lipids, 517
 metabolism in yeast, effects of temperature stress, 715
 platelet, dietary effects of fish oils on fatty acid composition, 744
 serum, effects of Tamoxifen, 505
 synthetic, platelet aggregation, serotonin release, 868
 tandem FAB mass spectrometry, 480
 PHYTANIC ACID, distribution in human tissue with Refsum's disease, 69
 PHYTOSTEROLS, metabolism by *Paramecium tetraurelia*, 386
 PINEAL BODY, bovine, composition of major gangliosides, 17
 PLASMA, exchange of α -tocopherol with red blood cells, 469
 fatty acid composition in glycogen storage disease, 381
 lipids and fatty acids, effects of very low fat diets, 523
 rat, lipid composition, effect of hypothyroidism, 148
 rat, lipids, effects of fat composition of the diet, 88
 PLASMA LIPIDS, mice, effect of palmitoyl glycerol, 1009
 rat, uptake of lipids, fatty acid profile, 994
 PLASMALOGENS, biosynthesis and transformation, 789
 PLASMODIUM VINCKEI, infected mouse erythrocytes, lipids and susceptibility to oxidative damage, 51
 PLASTICIZERS, effects on hepatic phospholipids, 572
 PLATELET ACTIVITY FACTOR, analogs, neoplastic cell inhibition, 878
 PLATELET AGGREGATION, effect of synthetic phospholipids, 868
 PLATELET DERIVED GROWTH FACTOR, inhibition by SRI 62-834, 884
 PLATELET PHOSPHOLIPIDS, fatty acid composition, effects of dietary fish oils, 744
 PLATELET-ACTIVATING FACTOR, effect on phospholipid acylation, 333
 human leucocytes, 285
 inhibition by SRI 62-834, 884
 phospholipases C and D, 800
 synthetic alkyl phospholipids, antitumor activity, 862
 PLATELETS, human, arachidonate release, 116
 human, changes after a fat meal, effects of Dazmegrel, 159
 POLYMYXIN B₁, effects on acyltransferases, 757
 N-3 POLYUNSATURATED FATTY ACIDS, distribution in rat liver under a fat free diet, 45
 POLYUNSATURATED FATTY ACIDS, abnormal metabolism in diabetic glomeruli, 704
 incorporation into human keratinocytes, 139
 rat, effect of trielaidin and linolenic acid, 1025
 PORTUNUS XANTUSI (PACIFIC CRAB), gill lipid content, 76
 PRIMROSE OIL, effect on mammary tumorigenesis, 1041
 PROSTAGLANDIN METABOLISM, dietary effects of eicosapentaenoic or docosahexaenoic acids, 647
 PROTEIN KINASE C, transmembrane signalling, effect of 1-O-alkyl-2-O-methylglycerol, 842
 PTILOTA FILICINI (SEAWEED), icosapentaenoic acids, 190

R

RABBIT, alveolar macrophages, phospholipid metabolism, 589
 aorta, monoacylglycerol lipase, activity, 999
 blood cell fatty acid profile, effect of fatty acid-glycerol emulsion, 1031
 lung microsomal phospholipase A₂, 731
 RAPESEED, developing seeds, acyltransferases, 293
 RAT, adipose tissue, composition and lipogenic activity, 338
 apolipoprotein B content, chylomicrons, zinc deficiency, 1035
 chemical carcinogenesis, modulation by alkyl lysophospholipids, 935
 cholesteryl esterase activities in heart tissue, 108
 hepatic desaturase activity, effect of cold environment, 583
 hepatic enzymes, effects of age, 677
 hyperlipidemic, effect of L-carnitine, 1005
 intestine, effects of dietary fat manipulation on transport, 22
 liver, bile lipid secretion, 1
 liver, cholesterol synthesis, effect of ketoconazole, 1020
 liver, parenchymal and fat-storing cells, lipid composition, 266

liver and plasma lipids, effects of fat composition of the diet, 88
 liver desaturases, activities, 282
 liver enzymes, effects of dietary *trans* fat on fatty acid oxidation, 6
 liver microsomal membranes, distribution of fatty acids under a fat-free diet, 45
 liver microsomes, acyltransferases, lysophospholipids, 808
 liver microsomes, O-alkylglycerol monooxygenase, 831
 liver microsomes, degradation of platelet-activating factor, 800
 liver plasma membrane, release of 5'-nucleotidase, effects of lecithin, 41
 liver tissue, measurement of malondialdehyde, 104
 lymphatic system, transport of dimethylbenz(a)anthracene, 152
 mammary tumor, ET-18-OCH₃, and hexadecylphosphocholine, 927
 mammary tumorigenesis, effect of dietary primrose oil, 1041
 pharmacokinetic properties of BM 41.440, 952
 plasma and erythrocyte membrane, lipid composition, effect of hypothyroidism, 148
 plasma lipids, fatty acid profile, eicosapentaenoic acid, 994
 prostanoid metabolism, dietary effects of eicosapentaenoic or docosahexaenoic acids, 647
 RRR- and SRR-Tocopherols, dietary, biokinetics and discrimination, 163
 spleen microsomes, lyso-PAF acetyltransferase, 185
 tissue composition of polyunsaturated fatty acids, 1025
 RED BLOOD CELLS, exchange of α -tocopherol with plasma, 469
 REDUCTASE, changes, effect of diet, rat, 1057
 REDUCTASE, HMG-CoA, loss of NADPH during analysis, 409
 REFSUM'S DISEASE, tissue distribution of phytanic acid, 69
 RETINA, docosahexaenoate-containing lipids, effects of aging, 253
 REYE'S SYNDROME, mouse model, hepatic lipid profiles, 217

S

SACCHAROMYCES CEREVISIAE, sterol and phospholipid metabolism, effects of temperature stress, 715
 SAFFLOWER OIL, lipid absorption in cystic fibrosis, 424
 SARCOMA, inhibition of growth, synthetic alkyl phospholipids, 862
 SCIATIC NERVE, fatty acid composition, influence of dietary fatty acids, 535
 SEAWEED, *Ptilota filicini*, icosapentaenoic acids, 190
 SEROTONIN, release, effect of synthetic phospholipids, 868
 SERUM, cholesterol metabolism, rat, effect of cupric ions, 1016
 fatty acid composition in children, reproducibility study, 250
 SPECTOMETRY, MASS, picolinyl esters of mono- and dienoic fatty acids, 224
 picolinyl esters of octadecadienoic acids, 664
 tandem mass, complex phospholipids, 480
 use in characterization of feline omentum lipids, 229
 SPECTOMETRY, NMR, fatty acid content in fungus, 1060
 SPECTROPHOTOMETRY, assay of lipase activity, 539
 SPHINGOMYELIN, biosynthesis, phosphatidylcholine as the choline donor, 351
 SPONGES, ether lipids, 236
 fatty acid composition, 767
 SPORES AND MEMBRANES, *Bacillus megaterium*, lipid composition, 698
 SRI 62-834, antitumor activity, 884
 STEROL A²⁴ REDUCTASE, inhibition by calmodulin antagonists and suppression of cholesterol synthesis, 261
 STEROLS, analysis in cotton buds and anthers, 80
 metabolism in the nematode *Caenorhabditis elegans*, 84
 metabolism in yeast, effects of temperature stress, 715
 SYNTHETIC PHOSPHOLIPIDS, platelet aggregation, serotonin release, 868

T

TAMOXIFEN, effects on serum lipoprotein phospholipids, 505
 TAUROCHOLATE, effects on bile secretion in rat liver, 1
 TETHA AURANTIA, ether lipids, 236
 TETRACHLOROMETHANE, effects on hydroperoxides in rat lipids, 689
 THERMOGENESIS, dietary inducement, 442
 THIAZANONES, synthesis, 578
 THIOETHER LIPID, BM 41.440, cytotoxicity, 958

SUBJECT

- THIOETHER PHOSPHOCHOLINE ANALOGS, pharmacokinetics, 952
 synthesis of, 947
 THIOESTER LYSOPHOSPHOLIPID, anti-neoplastic activity, 916
 THIOETHER PHOSPHOLIPID, effect on cell membrane invasion, 847
 synthesis of analogs, 947
 THIOETHER PHOSPHOLIPID ANALOG, BM 41.440, cytotoxic activity, 955
 BM 41.440, phase I trial, 962
 THROMBIN, effect on arachidonate release in human platelets, 116
 THROMBOXANE SYNTHETASE, Dazmegrel as an inhibitor, 159
 TOCOPHEROLS, biokinetics and discrimination between diastereomers in the rat, 163
 status in mice, effects of dietary fish oils, 345
 TRIELAININ, effect on polyunsaturated fatty acids in rat, 1025
 TRIDOCOSAHEXAENOYL-GLYCEROL SUSPENSION, effect on blood, fatty acid profile, 1031
 TRIGLYCERIDES, chylomicron, serum clearance, 318
 effect of L-carnitine, 1005
 medium chain, effects on adipose tissue growth, 429
 medium chain, influence on rat mammary tumor development, 455
 medium chain, nonglucose energy sources in hyperalimentation, 421
 medium chain, structured lipids, 417
 medium chain, thermogenesis and the role of brown adipose tissue, 442
 medium and long chain, dietary effects on adipose tissue metabolism, 435
 TRITON, effect on lipid metabolism in rats, 566
 TROUT, liver and intestine, membrane lipids, effect of eicosatetraenoic acid, 1053
 TUMOR CELLS, alkyl lysophospholipid, membrane fluidity, 820
 membrane fatty acid modification, as a therapeutic adjunct, 178
 TUMOR DEVELOPMENT, influence of dietary medium chain triglycerides, 455
 TUMOR GROWTH, protein kinase C, antineoplastic ether phospholipid, 842
 TUMOR PROMOTERS, inhibition of, by ether lipids, 851
 TUMORIGENESIS, mammary, rat, effect of diet, primrose oil, 1041
- V**
- VASOPRESSIN, effects on oleate metabolism, 474
 VEGETABLE OILS, isolation and quantitation of lectins, 667
 VITAMIN E, dietary effects on malondialdehyde in rat liver tissue, 104
- W**
- WAXES, maize, epicuticular, in double mutants, 11
- Z**
- ZINC, deficiency, effect on mesenteric lymph chylomicrons, apolipoprotein B, 1035
